## Mini/Micro Throttles, LED controllers, Electronics, & Cases

### 3A Precision & 2A Micro Train Throttle & LED controllers, USB output ports

All products are up to 94% efficient for cool operation and some models have AC and DCC inputs in addition to DC inputs of 0-30 volts  
 Each can power 1 to 300 LEDs in parallel without dropping resistors for fast, easy, fool-proof loco, car, building and trackside lighting  
 3A has 25 turn adjustable pot allows LED w dim & speed ctrl 1.2 - 30 Volts (1.5 volts less than input), 3 Amps, 15 Watts Max  
 2A has solder fixed w adj pot for LED w dim & speed ctrl 1.2 - 30 Volts (1.5 volts less than input), 3 Amps, 15 Watts Max  
 USB has fixed 5 volt output - 6-24V input for any 1A USB device, 1 Amp output
